First class freight rates from Chicago to New Orleans are now \$2.28 per hun-dred pounds, he explained, while from Chicago to New Tork they are \$1.514.

The lower water rates from New Orleans would not equalize this, the witness inisated.

"Nothing at all the witness replied, "and something very desirable from the standpoint of public policy in increasing the use of the Panama canal facilities, and of competitive service to consumers."
